

Where Am I Headed?

Do you ever daydream about the future? Ever think about what you'd like to do after high school? Maybe you like to imagine the life you're going to lead, the house where you'll live or the car you'll drive. Maybe you picture yourself as a doctor, judge, artist, entertainer or truck driver.

If you have a goal, good for you! You're one step ahead of the game. If you haven't decided on one yet, no worries. The great news is you don't have to plan out the rest of your life right now. You have plenty of time to make those decisions. But it's never too early to start imagining the things you'll do and the places you'll go.

One way to get started is to think about your hobbies or special interests. What do you like to do with your free time? It's possible these activities could lead you to a career that you'd enjoy.

Check out the following pages to identify activities that you think sound interesting. You don't have to be good at the activities—just check them if you think they're something you'd like to explore or learn more about.

After some exploration, you'll be able to see if you're a persuader, thinker, organizer, creator, helper or doer. By identifying your interests and figuring out which category fits you best, you just might find a career that can help make your dreams come true.

- ___ Supervising people
- ___ Saving and managing money
- ___ Being elected class president

- ___ Building things with your hands
- ___ Doing outdoor activities
- ___ Running a race
- ___ Studying animals
- ___ Painting a piece of furniture
- ___ Playing with a chemistry set

Now it's time to do some math! Look back at your worksheet and count how many times you checked something in each of the categories and then record your answers below.

Each of the letters stands for an interest group. Each interest group has jobs that tend to go along with it. The letter that has the highest score represents your primary interest group. Keep reading to learn more.

E stands for enterprising. If you chose activities in this category you're a **persuader** who's competitive and a natural leader. You might enjoy working where you can start projects or develop new products or ideas. You like action and enjoy persuading people to do things your way. Consider exploring sales, real estate, politics or owning your own business.

I is for investigative. If you mostly chose these activities, you're a **thinker** who probably likes finding facts, exploring and figuring out problems. You might enjoy working in finance or math, being a teacher, doctor or engineer.

C is for conventional. Conventional people are **organizers** who may like working with information, numbers and details. Accounting, business or banking may be just the trick for you.

A is for artistic. Artistic people are **creators** who like things to be unique and original. If "A" is your primary interest group, consider working in an environment where you're free to use your imagination. Art therapy, animation, music, painting or acting may be areas of interest for you.

S is for social. Being social means you're a **helper** who's probably cooperative and supportive, and you like to take care of people or things. Helpers tend to make good nurses, athletic trainers, counselors or social workers.

R is for realistic. Realistic people are **doers** who are hands-on, practical people. You may be a natural athlete or you might enjoy being outdoors. Doers make good police officers, veterinarians, mechanics, architects or landscapers.
