

College Fair Worksheet

College fairs are the perfect place to find out what Oklahoma colleges and universities have to offer. Use the chart on the back to compare at least three schools you're interested in attending.

Ask the college representatives at the fair if they offer any of the majors you're interested in pursuing. If they do, ask some additional questions to find out more about the school. Sample questions are included in the chart on the back or you can make up your own. Remember, college is an investment in your future. Make the most of this opportunity and learn as much as you can at the college fair.

Consider completing the career search profile on OKcollegestart.org before the college fair, so you can learn more about possible degrees and careers that interest you. Write down your top three choices for possible careers in the spaces below.

- 1 _____
- 2 _____
- 3 _____

College Fair Questions

School Name:

School Name:

School Name:
